

## GLADIATOR™ WALKRAMP

The Gladiator walkramp provides superior slip performance with low maintenance costs.

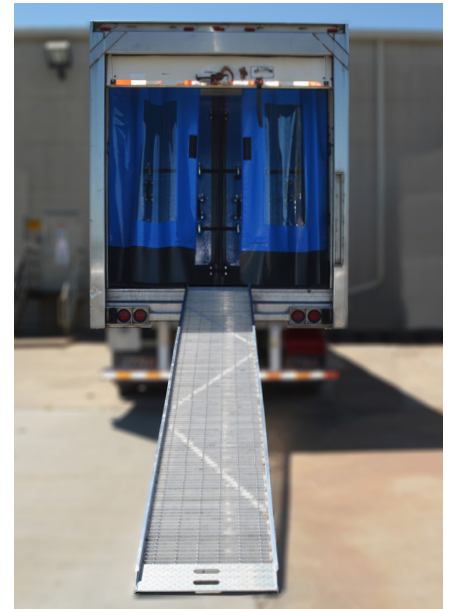

### ALUMINUM CONSTRUCTION

The lightweight, aluminum design makes deploying the Gladiator walkramp quick and easy.

### SLIP RESISTANT

A serrated walk surface provides superior traction with every step.

### INTEGRATED HANDLES

Built-in hand grips enhance quick and easy set-up and storage.

### SWAY BRACING

Ramps that are greater than 12' in length feature integral sway bracing for enhanced stability.

## MATERIALS

- Lightweight aluminum
- All-welded construction

**LIFT-EZ**

Lift Assist available with 14' and 16' ramp lengths.

Optional, fully enclosed carrier available with 14' and 16' ramp lengths.
