Safe Fleet Truck & Trailer Showcases its Comprehensive Solutions at the Truck Maintenance Council's Annual Meeting to Help Fleet Owners Accelerate Safety, Efficiency, and Productivity

Video & Camera technology expands Safe Fleet Truck & Trailer's portfolio providing fleet owners and managers with innovative solutions keeping the road of life safe

Elmhurst, IL – February 20, 2018 - On March 5 – 8, more than 4,500 attendees are expected to converge on Georgia World Congress Center in Atlanta for Truck Maintenance Council (TMC) Annual Meeting & Transportation Technology Exhibition. TMC has grown to become the premier technical exhibition for new trucking-related products and services.

Safe Fleet Truck & Trailer will be exhibiting at TMC 2018 in booth #3140, showcasing its portfolio of fleet products including Randall Temperature Control; Bustin, Randall, and ROM Access products; and SEON & RVS Video and Camera product solutions. Safe Fleet Truck & Trailer brings together a diverse portfolio of products that promote safety in: food delivery, driver delivery equipment, and protecting life on the road with video and camera solutions.

"This is our first year exhibiting as Safe Fleet Truck and Trailer," said Chuck Carey, vice president of sales. "Our unique product portfolio representing well established brands – Bustin, Randall, and ROM – combined with the experience of our sales team helps fleets achieve unprecedented levels of safety both inside and out of the trailer."

The newest product line additions to Safe Fleet Truck & Trailer's portfolio are Video & Camera solutions. With a wide selection of rear view camera systems, driver and front facing camera systems, and a 360 camera solution, Safe Fleet Truck & Trailer's team is able bring innovation and technologies to a diverse market with diverse needs.

"Bringing innovation and technologies to the market is our goal as customers are looking for fleet solutions that are customizable and configurable," continued Carey. "Our diverse portfolio meets the complex needs of fleets today – with one point of contact."

###
