

WIRED BACKUP CAMERA SYSTEM: 7" MONITOR

The 7" Wired Backup System is complete with a crystal clear 7" TFT LCD DIGITAL COLOR monitor with mirror image capability and distance grid lines, a 3 channel multiplexer with automatic system switch, one 130° CCD camera with 50 foot infra-red night vision.

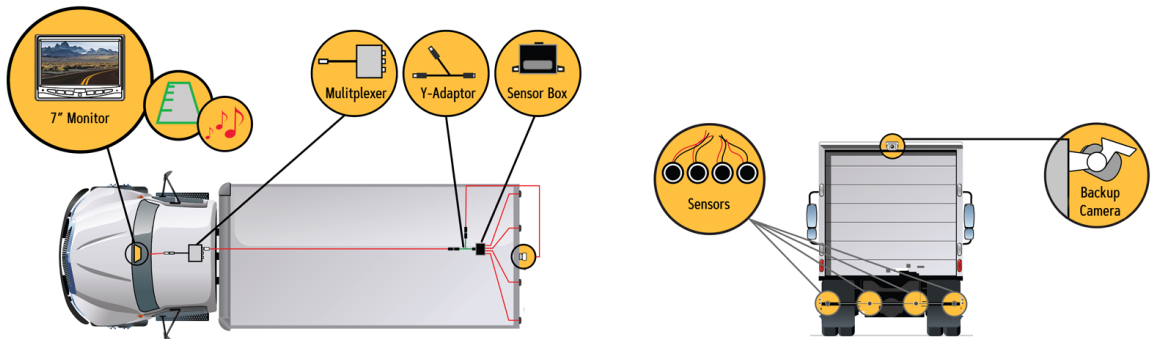

Standard System includes:

- 1 - Color CCD Weatherproof Camera with Infra-Red Illuminators
- 1 - 7" TFT LCD Color Monitor with Universal Mount
- 1 - Trailer Quick Connect/Disconnect Kit
- 1 - 3 Channel Multiplexer Control Unit
- 1 - Remote Control
- 1 - Double RCA + Power Converter (To Connect External Audio, Video, and Power)
- 1 - 66' Camera Cable
- 1 - Screw Kit for Installation

OPTION: INTEGRATED AUDIBLE REAR SENSORS

Rear backup sensors integrate flawlessly into the backup camera system alerting the driver audibly to potential hazards behind the vehicle. These sensors also display on the monitor the distance behind the vehicle.

OPTION: DRIVER AND CURB SIDE CAMERAS

Side view cameras can be added to the driver and curb side of your truck. Expanding the view available for driver to see pedestrians, obstacles or other vehicles when changing lanes.
