

FDP 3123L PLATFORM

Designed for access at any side door, the Randall FDP 3123L has a 31" wide by 23" deep walk surface and integrated ladder. Slide blocks and rollers allow ease of deployment and stowage. This one is a work horse!

Wide surface provides loading and unloading space; platform accommodates varying deck heights.

Spring lock ensures the FDP 3123L stays in place and disengages on your command.

Randall's signature, all-weather walk surface on the platform and ladder steps provide superior continuous traction.
